

Information related to AI Doctor:

"Semantic Text similarity underlies many more sophisticated AI problems in Natural Language processing, and recent advances in Deep Learning are being applied along the more traditional techniques. There are many online tutorials that cover this exciting and difficult problem. Some we can recommend are:

- Text Similarities : Estimate the degree of similarity between two texts (Adrien Sieg)

<https://medium.com/@adriensieg/text-similarities-da019229c894>

- Semantic textual similarity with Transformers

https://www.sbert.net/docs/usage/semantic_textual_similarity.html

- Text Similarity using Spacy

<https://spacy.io/usage/vectors-similarity>"
